

LEGAL NOTICE

STATE OF LOUISIANA, OFFICE OF CONSERVATION, BATON ROUGE, LOUISIANA.

In accordance with the laws of the State of Louisiana, and with particular reference to the provisions of Title 30 of Louisiana Revised Statutes of 1950, a public hearing will be held in the Hearing Room, 1st Floor, LaSalle Building, 617 North 3rd Street, Baton Rouge, Louisiana, at 9:00 a.m. on **TUESDAY, MAY 6, 2008**, upon the application of **PETROQUEST ENERGY, LLC.**

At such hearing the Commissioner of Conservation will consider evidence relative to the issuance of Orders pertaining to the following matters relating to the **Camerina 1 Sand, Reservoir A**, in the Mermentau River Field, Acadia Parish, Louisiana.

1. To determine that unitization of the Camerina 1 Sand, Reservoir A, is unnecessary because the entirety of the reservoir lies beneath a single tract.
2. In the alternative, and only in the event the Commissioner of Conservation determines that the reservoir lies beneath more than one tract, then, to establish rules and regulations and create a single drilling and production unit for the exploration for and production of gas and condensate from the Camerina 1 Sand, Reservoir A.
3. To force pool and integrate all separately owned tracts, mineral leases and other property interests within the proposed unit, with each tract sharing in unit production on a surface acreage basis of participation.
4. To designate the PetroQuest Energy, LLC-Cary Estate No. 1 Well as the unit well for the proposed unit.
5. To designate PetroQuest Energy, LLC. as the operator of the proposed unit.
6. To provide that any future wells drilled to the Camerina 1 Sand, Reservoir A, within or outside of the proposed unit, should be located in accordance with the spacing provisions of Statewide Order No. 29-E.
7. To provide that the Commissioner of Conservation should be authorized to reclassify the reservoir by supplemental order without the necessity of a public hearing if the producing characteristics of the reservoir change and evidence to justify such reclassification is submitted to and accepted by the Commissioner of Conservation.
8. To consider such other matters as may be pertinent.

The Camerina 1 Sand, Reservoir A is hereby defined as being that gas and condensate bearing zone encountered between the depths of 12,314' and 12,367' (electrical log measurements) in the PetroQuest Energy, LLC.-Cary Estate No. 1 Well, located in Section 64, Township 10 South, Range 2 West.

A plat is available for inspection in the Office of Conservation in **Baton Rouge** and **Lafayette**, Louisiana.
